

## **IT WAS PERCEIVED - IT WAS ACHIEVED! THE WEST HAVEN CITY PARK**

In 1994, 40 acres of property was purchased at 2827 West 3300 South, West Haven, UT. This marked the planting of the seed and gateway to harvesting the first West Haven City Park.

With a continuous vision and the support of each West Haven City Mayor and Council Member, the seed was nurtured and soon a solid foundation emerged. Today we have a beautiful park that has become the hub for family reunions, rodeo's, riding clubs, children playing on safe equipment while others participate in t-ball, baseball, softball, soccer, basketball and football.

There's the annual Easter Egg Hunt and West Haven Heritage Day Celebration complete with the best fireworks show around. People come from all over to hold their events in our city park. There is a long waiting list for the use of our upscale arena.

This beautiful park is the culmination of a mountain of volunteered time and talent from the City's Park Committee members, a wide range of donations from city residents and businesses, endless hours spent by the City's Public Works Crew under the direction of Scott Venstra, topped by the leadership abilities and dedication of Council Members Tim Jensen and Jenny Canter to making the annual Heritage Day Celebration, Arbor Day tree planting and the ever developing recreation program a huge success.

**FOR ALL OF THIS WE THANK EVERYONE FOR CARING!**

Check back soon for information on more park areas to be developed for your enjoyment! Meanwhile, come out and have fun under the sun at the West Haven City Park!
